

TECHMOUNT®

7/8 " to 1/2" Handlebar Reducer Bushings

Installation Instructions:

The handlebar reducer bushings allow the 7/8" handlebar clamp to be used on the handlebar crossbar or fairing support bracket on many motorcycles and ATV's. Simply place the (2) bushing halves as shown above onto the 1/2" round bar and install the handlebar mount as usual.

(For use with all TechMount P/N 30996 , 30996M mount systems)
